- 20% installation discount if installation is setup and installed before Aug 15th, 2017

Precision Planting Products Explained

vDrive- is an electric drive that is paired with an industry leading vSet meter to act as rate and section control for each individual row. It eliminates your clutches, hydraulic drives, chains, and cables and delivers extremely accurate population control even around curves. Simple and efficient!!!

DeltaForce- replaces the springs or air bags on your planter with hydraulic cylinders. It automatically increases or reduces weight with military precision, on each row individually. So when one row encounters conditions different than another (wheel tracks, old road beds, clay knobs, headlands, whatever), each will adjust independently. Row by row, foot by foot, depth stays exactly where you want it.

SpeedTube- enables accurate seed spacing at any speed — regular seed tubes just can't handle going faster. Take control of your best planting window at double your speed. The secret is in the flighted belt that takes gravity out of the equation. There's no opportunity for seeds to ricochet into the trench. Even at twice the speed you normally plant, every seed arrives safely at the bottom of the trench, spaced evenly, every time. So the perfect plant spacing is attainable, while Maximizing that perfect planting window.

vDrive Insecticide- is the electric motor-driven insecticide meter that provides accurate delivery across your entire speed range. Row by row population, and section control for your insecticide delivery is now within reach.

Ag Leader Summer Programs

Ag Leader summer programs for 2017 highlight 3 things. They expire September 29th, 2017 or until supplies last.

- Trade in your old display and steering system for the new all in one InCommand 1200 tablet based 12 inch display, and the new SteerCommand system. Applicable trade in systems include John Deere 2630, 2600, Brown Box, Pro 700, Outback Max, Topcon X35, X30, X25, AutoFarm A5, 5001, Legacy Ag Leader InSight/AutoPilot, Ag Leader Integra/ParaDyme or GeoSteer
- Take \$75 off per row for on SureDrive electric drives
- 2.49% long term financing available

Trimble CenterPoint RTX Program for TMX 2050

On systems that qualify, Trimble is offering two Centerpoint RTX programs. They are valid through August 31st, 2017.

- 1) One free month of CenterPoint RTX standard or fast depending on your area (most No IL and Central IL are fast zone, and So IL south of STL line is standard). The free code also includes the unlock licenses in display needed for that month.
- 2) A one year subscription of CenterPoint RTX standard or fast depending on your area including the accuracy unlock or unlocks in the display needed for \$1,995.
