Trimble Ag Business Solutions (formerly Farmworks) Training Sessions

March 14-16—Bloomington, IL

Precision Planting YieldSense Yield Monitor for Lexions

YieldSense is now compatible with Lexion combines. Pricing will be available in late spring. Full production availability will include models with 9" elevators. Limited production availability will include models with 6" elevators.

- Full production= all 700 series, 580R, 585R, 590R, 595R, and 570R and 575R year 2006 and later.
- Limited Production= 570R from year 2004 or 2005, all 5650R, and all 400 series.

Trimble Free 10 Day Demo Unlocks

Trimble is now offering free 10 day demo unlocks for the TMX 2050, FMX, CFX 750, and Ag 372 Receiver. The free 10 day unlock can be applied once per year, and will unlock every possible unlock in the display or receiver. Some of the unlocks include accuracy upgrades, Variable Rate, NextSwath Turn Technology, Connected Farm Functionality, and ISOBUS or VT functions. Let me know if you want more details, or to get a free 10 day unlock.

Precision Planting Program Deadlines

- Precision Planting has again partnered with Diversified Financial to offer a 2.99% - 36 month fixed rate financing offer through February 28, 2017. The total of the sale must be over \$10,000.
- \$500 discount on a Generation 2 20/20 SeedSense monitor now through February 28th, 2017.

Precision Planting Gen1 to Gen2 Display Precision Acre

A reminder that those who signed up in 2014 for the Precision Acre either starter, or upgrade program, this is the last month to either get a Gen2 20/20 display with a purchase of vDrive, DeltaForce, or vSet Select, or for the starter package growers, if you traded planters between 2014 and now to get the new parts for the planter free of cost.

Tru Count Clutch Maintenance

Ran into a document a couple days ago, and though I would share –See our website under the Training tab-- In preparation for planting season, some tips and hints for maintaining your Tru Count air clutches.
