

FREE Farmers Business Network Free Year Subscription from Linco Precision Extended

Linco Precision and Farmers Business Network have teamed up with a special coupon now until September 15th, 2017 to cover you for a FREE subscription to the Farmer Business Network. That is a \$600 subscription that we will be covering for *free*. One required item is that you must provide FBN with at least 1 year of either planting data from 2017 or 1 year of harvest data from 2016, by 30 days after you register for free. An FBN Representative would be available to come get that data from you if needed, or you can send it electronically to FBN or me.

I have attached a demo planting/ harvest report.

This deal is really too good to pass up!!! If interested, or if you have any questions, please let me know.

Here is a link to a short vdeo explaining the Farmers Business Network:
<https://youtu.be/IS4KIrcRMMU>

Also here are some reviews of those that have used Farmers Business Network:

“This company is the future of agriculture in my opinion. The marriage between big data and agriculture is the key to sustainability. Keep your eyes on this company!!”

“Anyone who runs or owns any operation needs to see the demo. This system is what analytics is to baseball.”

“FBN is like my Cresent wrench in all my toolboxes. I use it almost everyday from price checking to logging notes. Everyone wins with FBN”

Climate FieldView Cab App and IOS Software

The Climate corporation is recommending any growers using FieldView Cab app this fall whether with YieldSense or with a FieldView Drive module to not upgrade the iPads IOS operating system software until the Climate corporation says that it is approved. Any questions regarding this, please let me know.

Yetter Row Cleaners Discount

Yetter manufacturing will be offering a 3% discount on all Yetter purchases from now until September 15th, 2017. Also there will be free shipping on row cleaners only as well until September 15th.

2017 and newer row cleaners come with a mount ready for a Precision Plantings in cab air adjust CleanSweep cylinders. Yetter row cleaners wheel options include a beveled wheel or the popular shark tooth wheel.

Precision Planting 20/20 Software Update

Version 2017.4 software has been released for Gen1 and Gen2 20/20 displays. If using the 20/20 in the combine, it is recommended that you update to this version. If not using in the combine, waiting until the 2018 versions is recommended.

Here is what has been added in the update:

- Added production support for Lexion combines
- Fixed issue with AgLeader and Case moisture sensor that would cause a mismatch between YieldSense and the OEM monitor
- Fixed issue in Streaming Coverage where cache size would increase and never decrease
- Fixed inability to delete field map data from previous seasons
- Changed crop constant reset process. Crop constants are no longer automatically reset. Growers should reset at beginning of season for best accuracy

Climate FieldView Plus Price Increase

Starting September 1st, 2017 Climate FieldView Plus yearly subscription will increase from \$749 a year to \$999 a year. Also starting September 1st, you will no longer be able to have 2 free fields using FieldView Plus.

FieldView Plus includes all the features of the free FieldView Prime like field level weather, scouting, and notifications, but also includes data transfer between the cloud and your iPad, Yield Analysis, Field Health imagery, and manual prescription creating.

To know if you have FieldView plus or not, open your FieldView Cab App on the iPad and if you have a cloudsync button on the bottom left, you are subscribed to FieldView Plus, if not you are most likely not a FieldView Plus member.

Contact me for the following:

- See if Climate FieldView Plus is right for you?
- See if you are currently subscribed to FieldView Plus?
- To see when your FieldView Plus expiration date is?
- To sign up before September 1st for the lower price!
- To sign up 2 free fields before Sep 1st!
