

## **Climate FieldView Plus Special Offer**

A 2018 Climate FieldView Plus, 1-year subscription will be \$999 starting October 15<sup>th</sup>, 2017, but before October 15<sup>th</sup> 2017, Climate will be offering a year subscription for \$749.

Climate FieldView Plus includes all the tools of Climate FieldView Prime like weather reports, scouting tools, simple data visualization, field summary data and a data inbox, but it also includes the following:

- Yield analysis
- Field region reports
- Field health imagery
- Manual script creating
- Split screen functions
- Remote view
- Cloud storage

Climate FieldView Pro will include all Prime and Plus features as well as Advanced seed prescriptions, and sub field nitrogen monitoring services for \$4 an acre.

Also, FieldView Drive is a module that will connect up too many platforms and communicate data via Bluetooth to the Climate FieldView Cab app that is also used with the 20/20 display for planter or yield monitoring. Many John Deere and Case combines are supported, but recently some New Holland, Lexion, Gleaner, and Massey Ferguson models are now supported. Contact me for more information, and to see if your combine is compatible.

- SMS Desktop- 17.5

## **FREE Trimble Ag Farmer Pro Software Trial**

Now until October 31<sup>st</sup>, 2017, Trimble is offering a free 14 day trial of Trimble Ag Farmer Pro software. Contact me for more details on how to get the free trial software.

By combining three cutting-edge ag software platforms — Connected Farm, FarmWorks Software and Agri-Data Solutions — into one powerful end-to-end ag solution, Trimble Ag Software drives productivity, profitability and sustainability. It's a revolution in online and mobile-enabled farm data management that is transforming the way ag professionals work.

## **SpeedTube Belt Housing and Cover Update**

The SpeedTube Belt Housing and Cover have been updated to extend the wear life of the seed discharge area. A metal insert is now molded into the seed discharge area on each part. The updated belt housing and cover are sold as a kit with a list price of \$55. The belt housing and cover remain wear parts that should be inspected annually.

Because of this design improvement, Precision Planting encourages all SpeedTube belt housing and cover assemblies to be replaced with the new design. This is not a required update, but to encourage our growers to update, we are offering these kits at a discounted price of \$40 instead of the normal price of \$55 before January 15th, 2018andy. Contact Andy to order or for any questions or concerns.

## **Used and OverStock Items**

Check out our list of used and overstock items that we have available:
