

Linco Precision “Ag Drones in Action”

Wednesday June 22, 2016

At:

Klinefelter Farms

15215 Nokomis Road

Nokomis, IL 62075

6 Miles South of Nokomis on Nokomis- Fillmore Blacktop

Registration begins at 8:30am, and event concludes around 2pm. Event covers FAA rules and regulations, DJI Phantom 3, Crop Copter Tuff Scout, Crop Copter MaxFlight and Ez Health, current and future UAV uses, and Precision Plantings “Precision Decision” programs.

First 10 people to RSVP and attend will be put in a drawing to win 1 of 2 free flights over your field up to 80 acres. The flight will provide up to a 1 meter resolution true NDVI image for you to keep!!!

RSVP by Friday, June 17,
2016 to:

Office [309-527-6455](tel:309-527-6455)

Andy [217-670-4435](tel:217-670-4435)

Skip [217-473-2471](tel:217-473-2471)

Precision Planting “Precision Decision” Programs

- \$150 per row rebate for systems that include both vDrive and DeltaForce purchased between June 1, 2016 - August 15, 2016
- \$50 per row rebate for vDrive electric drive systems purchased between June 1, 2016 - August 15, 2016
- \$50 per row rebate for DeltaForce hydraulic downforce systems purchased between June 1, 2016 - August 15, 2016
- \$1000 rebate per 20/20 SeedSense purchased between June 1, 2016 - August 15, 2016
- \$500 rebate per 20/20 SeedSense purchased between August 15, 2016 - February 28th, 2017
- 1.99% - 36 month -- Grower financing on orders over \$10,000 June 1, 2016 - August 15, 2016 through Diversified Financial.

-vDrive is a row by row meter control system that acts as section control as well as population and variable rate control, with turn compensation. It removes all your difficult inaccurate drive system components, and controls your meter with one simple 12 volt motor.

-DeltaForce is a row by row hydraulic down and lift to achieve correct planting depth while minimizing sidewall compaction.

Depending on timing of purchase, and total volume of specific products, there may be additional 5% early order discount available on top of the programs already listed.

These are great programs available once a year for those looking to improve or update their current planter to the latest and greatest technology that Precision Planting has to offer. For more information, visit www.maketheprecisiondecision.com or view the attached PDF document.

Trimble Agriculture Summer Training **Session**

Linco Precision will be hosting a Trimble Agriculture training session on Wednesday, July 27th in Springfield. More details will be provided later, but product engineers, and regional sales managers from Trimble will be present, so if there is anything you would like to be covered in this event, please let me know, and I will include it in the agenda.

Ag Leader Releases Gen 2 SeedCommand **Lineup**

Available for order this summer, Ag Leader has released there Gen2 SeedCommand lineup which includes SureDrive, Row by Row Electric Drive System, and Individual Row by Row Hydraulic Downforce.

With SureDrive electric drives, you gain precise control of planter meter performance to incorporate variable rate planting and row shut-off. You also have the ability to instantly adjust population rates and maintain consistent seed spacing despite changes in the field, changes to planter speed, or on curves and headlands. The electric drives are built to install on most major planter brands on the market. The efficient, yet high torque electric drive motor isn't tied to a specific brand or type of seed meter making it flexible to work on the meter and planter you already have.

With Individual Row by Row Hydraulic Downforce, you are ensuring the row unit is maintaining proper soil contact in every row which results in ideal seed depth placement and uniform emergence. Row level control allows the system to monitor and respond to the downforce needs of each row, in order to account for constant variations in soil types and vehicle traffic compaction.

DJI Phantom 3 Professional Frequent Flyer Farm Ready Kits

DJI Phantom 3 Professional drones kits are now on sale for \$1999. They include a Phantom 3 ship and controller, camera already mounted on the ship, 2 sets of props, 4 batteries, a 4 port battery charger, a Nantuk lifetime guaranteed case, and cabling to attach to your Android or IOS phone or tablet. A PDF is attached with more details.

New Leader 2016 Programs

New Leader is offering 10% off all parts through 7/29/2016, and 15% off of a sales order over \$5000 through 6/29/2016. Contact Mike Kirwan at (309) 533-9087 or see attached flyer for more details.

B & W Gooseneck Hitches on Sale

B & W Gooseneck hitches are now on sale through July 31st, 2016. Now \$375 (regularly \$442) or \$590 installed (regularly \$690). B & W hitches come with a limited lifetime warranty, and are manufactured in the USA.

Precision Farming Products Current Software Versions

Trimble TMX- V 4.01
Trimble FMX- V 9.25
Trimble CFX 750- V 7.51
Farmworks Software- V 2016.01
Trimble Nav2 or 3 controllers- V 12.5
Trimble DCM 300 Modem- V 7.4.6
Trimble EZ Guide 250- V 3.10
Trimble Ag 372 Receiver- V 6.20
Trimble Ag 542 Base Station- V 4.93

Precision Planting 20/20 SeedSense- V 2016.4

Ag Leader SMS Software- V 16.5

Ag Leader InCommand 1200 and 800- V 1.2

Ag Leader Integra, Versa, or Compass- V 7.0
